Lots of kids will get a new smartphone with a built-in camera this Christmas

Yes, but 70% of usage is unmonitored & Sexting may fill this void

Up to 1-in-5 kids is now *Sexting* or has seen a *Sext*

The consequences for those whose trust is broken can be devastating

Shared images are a terrible form of bullying & can ruin reputations

They can also criminalise the young people who forward such images

What should we do?

Teach our kids to STOP-&-THINK!

SelfieCop is a new app that can teach kids safer camera behaviour. SelfieCop allows parents to check photos & videos taken by their child's smartphone. www.selfiecop.com
